J O I N T E C H N O L O G Y	6	20 / 30
THE TALENT PATH	8	20 / 20

Have you recently graduated?
Are you graduating soon?
Excited about the opportunities
in your career path?

Have you ever thought of a
technology career, but didn't
think you could?

Many amazing people have completed
their education and realized that they are
not interested in their current career path.
Many of those same people wished they
were more technical or that they had
pursued a technology career path.

Do you excel in:

• Math • Statistics • Analytical thinking • Writing • Problem Solving

If so, the Talent Path, a division of Genuent, wants to speak with you about a career in technology.

Launch Your Career:

The Talent Path is a program to create "ready-to-work" technology candidates in a wide variety of technology disciplines. There is no catch, we are hiring recent graduates and providing them an on-the-job training program to develop their knowledge and expertise within business analysis. How often are you paid to learn and develop new capabilities that strengthen your career?

You know your self and your abilities. We want to help you reach your goals and fill the technology skills gap that exists today. Approximately 250,000 technology jobs are created each year and our universities are graduating approximately 70,000 technology students each year.

If you are ready for a career in technology that allows you long-term career growth as well as financial success, then the Talent Path is your career path. We have partnered with the University of Houston to assist you in growing your career. Our mission is simple...to solve the technology skills gap.
